

i15

Ice and water dispenser

Serves popular chewable ice

The i15 utilizes advanced filtration technology for pure chewable ice and great tasting water. This is an ice dispenser that delivers all day ice for everyone, hot water for tea and hot chocolate, and ambient water which has been shown to be better for digestion. With the ability to produce up to 125 lbs. of ice per day, there will be plenty of ice-cold refreshment for the whole office.

Innovative design and technology

Antimicrobial Technology

SafeTouch™ uses a silver ion antimicrobial technology to reduce the spread of bacteria and viruses and make touchpoints more hygienic and safer to use

In-tank UV sanitization

LED UV technology is used in-tank to effectively remove waterborne micro-organisms and to guarantee great quality water glass after glass

Advanced filtration

The state-of-the-art filtration system reduces chemical contaminants, removes sediment and small particles, and eliminates off-tastes and odors

Modern and stylish

The i15 is an attractive addition to any workplace. It's high capacity ice production is designed to meet the needs of a busy office. The 9 inch dispense height accommodates large mugs and glasses. Add the optional touchless sensor-activated dispensing panel to reduce the amount of physical contact with the machine, keeping it cleaner and more hygienic no matter how many users you have.

Features

Produces 125 lbs. of chewable compressed nugget ice per day and stores up to 7 lbs. of ice

State-of-the-art filtration

Touch activated sensor operation for easy cleaning

Leak detection technology

Safety button for hot water dispensing

TDS management technology featuring the ability to flush the evaporator

Hot and ambient water

Antimicrobial surface protection

Water options
